### Content and Format of Lists

The three lists of designated HPSAs are available on the HRSA Data Warehouse shortage area topic web page and include a snapshot of all geographic areas, population groups, and facilities that were designated HPSAs as of April 29, 2022. This notice incorporates the most recent annual reviews of designated HPSAs and supersedes the HPSA lists published in the **Federal Register** on July 7, 2021 (**Federal Register**/Vol. 86, No. 127/Wednesday, July 7, 2021/Notices 35808). Note that HPSA designations that are currently proposed for withdrawal will remain in this status until they are re-evaluated in preparation for the publication of the 2023 HPSA **Federal Register** Notice.

In addition, all Indian Tribes that meet the definition of such Tribes in the Indian Health Care Improvement Act of 1976, 25 U.S.C. 1603, are automatically designated as population groups with primary medical care and dental health professional shortages. Further, the Health Care Safety Net Amendments of 2002 provides eligibility for automatic facility HPSA designations for all federally qualified health centers (FQHCs) and rural health clinics that offer services regardless of ability to pay. Specifically, these entities include FQHCs funded under section 330 of the PHS Act, FQHC Look-Alikes, and Tribal and urban Indian clinics operating under the Indian Self-Determination and Education Act of 1975 (25 U.S.C. 450) or the Indian Health Care Improvement Act. Many, but not all, of these entities are included on this listing. Absence from this list does not exclude them from HPSA designation; facilities eligible for automatic designation are included in the database when they are identified.

Each list of designated HPSAs is arranged by state. Within each state, the list is presented by county. If only a portion (or portions) of a county is (are) designated, a county is part of a larger designated service area, or a population group residing in a county or a facility located in the county has been designated, the name of the service area, population group, or facility involved is listed under the county name. A county that has a whole county geographic or population group HPSA is indicated by the phrase "County" following the county name.

### Development of the Designation and Withdrawal Lists

Requests for designation or withdrawal of a particular geographic

area, population group, or facility as a HPSA are received continuously by BHW. Under a Cooperative Agreement between HRSA and the 54 state and territorial Primary Care Offices (PCOs), PCOs conduct needs assessments and submit applications to HRSA to designate areas as HPSAs. BHW refers requests that come from other sources to PCOs for review. In addition, interested parties, including Governors, State Primary Care Associations, and state professional associations, are notified of requests so that they may submit their comments and recommendations.

BHW reviews each recommendation for possible addition, continuation, revision, or withdrawal. Following review, BHW notifies the appropriate agency, individuals, and interested organizations of each designation of a HPSA, rejection of recommendation for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list via the Shortage Designation Management System. Designations (or revisions of designations) are effective as of the date on the notification from BHW and are updated daily on the HRSA Data Warehouse website. While this list is a snapshot of HPSAs at a point in time, HPSA designations are regularly being updated so the best source of current designation status is the HRSA Data Warehouse website at (<https://data.hrsa.gov/tools/shortage-area>).

Designations proposed for withdrawal will remain in that status and not be withdrawn unless they do not meet the HPSA designation criteria at the time the Fiscal Year 2023 HPSA **Federal Register** Notice is developed and published.
